Re: 21 U.S.C. Section 343(r)(6), Notification of Statements on Dietary Supplements

Dear Sir/Madam:

I hereby notify the Food and Drug Administration ("FDA") of the use of statements of nutritional support in the labeling of Testo Jack, a dietary supplement.

Statements being made in the labeling of Testo Jack:

- (1) NOW® TestoJack 100™ contains a potent standardized extract of Eurycoma longifolia, commonly known as Tongkat Ali or Long Jack. LJ100™ contains bioactive Eurypeptides, the active constituents of Tongkat Ali. Clinical and non-clinical studies have shown that Tongkat Ali extracts support male reproductive function and healthy testosterone levels. Tribulus has been included for its virility enhancing effects as shown in scientific studies. TestoJack 100™ also contains ZMA®, a synergistic combination of zinc and magnesium for the support of healthy immune, reproductive and neuromuscular function. This combination of ingredients in TestoJack 100™ provides enhanced energy levels without the anxiety or insomnia that accompanies other energy supplements, as well as overall support for men's health.
- (2) Increases Virility
- (3) Supports Healthy Testosterone

To the best of my knowledge, and based upon information and belief present at the time of the executing of this notice, I certify that the above information is accurate and complete. NOW Foods possesses substantiation that the statements are truthful and not misleading.
